

George Strait "That's Where I Wanna Take Our Love"

Visit "[That's Where I Wanna Take Our Love](#)" on MotoLyrics.com

It's a quiet little place tucked away in the hills
Where a crystal clear lake makes it crystal clear
That there's not another livin' soul for miles and miles
around

That's where I wanna take our love and settle down

There's a giant old oak tree that knows just how to
shade
That midday summer sun when it's showin' off it's rays
While I'm making you a momma to Mother Nature's
sound

That's where I wanna take our love and settle down

That's where I wanna raise your babies that we make
And the hell you know we'll raise, when they raised
Cain
That's where I wanna see them laugh and cry and
breathe
That honeysuckle air after it rains

And they'll know
Just what country means
'Fore they go off to town

That's where I wanna take our love and settle down

And they'll know
Just what country means
'Fore they go off to town

That's where I wanna take our love and settle down
