One word, that's all you said
Something in your voice caused me to turn my head
Your smile just captured me
And you were in my future, far as I could see
And I don't know how it happened, but it happens still
You ask me if I love you, if I always will

Well you had me from hello
And I felt love start to grow
The moment that I looked into your eyes, you want me
It was over from the start
You completely stole my heart
And now you won't let go
I never even had a chance, you know
You had me from hello

Inside I built a wall
So high around my heart I thought I'd never fall
One touch, you brought it down
The bricks of my defences scattered on the ground
And I swore to me I wasn't gonna love again
The last time was the last time I'd let someone in

But you had me from hello
And I felt love start to grow
The moment that I looked into your eyes, you want me
It was over from the start
You completely stole my heart
And now you won't let go
I never even had a chance, you know
You had me from hello

That's all you said
Something in your voice caused me to turn my head
You had me from hello
You had me from hello
Girl, I've loved you from hello
