I LIKE GIRLS--George Thoroughgood

well

well

I really really really really really really like girls

yeah I really really really really really really like girls

I like girls

I like girls

I like girls

I like the way that they giggle

when they walk up and ask you to dance

I like the way that they wiggle

wrapped up in the skin tight pants

they got style

they got smiles

they drive me wild!

yeah I really really really really really really like girls

yes I really really really really really really like girls!

I like them small

I like 'em tall

I like 'em all!

now it don't bother me

if a girl don't know how to cope
because the things that they know
how to do can't be learned in a book!
they got smarts
they got hearts
they got my heart!
that's why I really really really really really really like
girls
yeah I really really really really really really like girls!
I want 'em small
I want 'em tall
I want 'em all!
every day in every way they're here to stay
they're really really neat
they're really sweet
they're real petite
I LIKE GIRLS!!!!
