"I Really Like Girls"

Visit "[I Really Like Girls](#)" on MotoLyrics.com

Well, well

I really, really, really
Really, really, really like girls
Yeah, I really, really, really
Really, really, really like girls

I like girls
I like girls
I like girls

I like the way that they giggle
When they walk up and ask you to dance
I like the way that they wiggle
Wrapped up in the skin tight pants

They got style
They got smiles
They drive me wild

Yeah, I really, really, really
Really, really, really like girls
Yes, I really, really, really
Really, really, really like girls

I like them small
I like 'em tall
I like 'em all

Now it don't bother me
If a girl don't know how to cope
Because the things that they know
How to do can't be learned in a book

They got smarts
They got parts
They got my heart

That's why I really, really, really
Really, really, really like girls
Yes, I really, really, really

Really, really, really like girls

I want 'em small

I want 'em tall

I want 'em all

Every day in every way

They're here to stay I'm here to say I like

They're really neat, they're really sweet

They are petite so I repeat I like girls

I like girls

I like girls

I like girls

Yeah, I really, really, really

Really, really, really like girls

I really, really, really

Really, really, really like girls

I like them small

I like 'em tall

I like 'em all
