I slapped my hand on my head then I jumped out of my bed
I put my shoes on my feet, drove my car into the street
I told my daddy bye bye, told my momma not to cry
Before the sun goes down, I'll run myself out of town

Every time I think about it, I know I can't do without it
'Cause you're so fine, you're always on my mind
From the day that I saw you, yes, that's when I fell for you
Before the sun goes down, I'll run myself out of town

Boo hoo hoo hoo, girl, I'm cryin' over you
All the stuff we've been through, girl, what else could I do
But run myself out of town when there's no one else around
All the stuff you're puttin' down, run myself out of town

I know the joke's on me for all the world to see
Before the sun goes down, I'll run myself out of town

Boo hoo hoo hoo, girl, I'm cryin' over you
All the stuff we've been through, girl, what else could I do
Run myself out of town when there's no one else around
All the stuff we puttin' down, run myself out of town
All the stuff we puttin' down, run myself out of town
