Silent lips speak to me

Don't keep me waiting

Silent lips say those words I long to hear

Say you want me, you need me, you love me

Time can fly, don't be shy

Just hold me near

Silent lips, the suspense will drive me crazy

Silent lips, why treat my poor heart like this

If you're too shy to tell me you love

Let me know by the silence of your kiss

[BRIDGE]

(Silent lips)

(Silent lips)

(Silent lips)
