

Georgia Satellites "Open All Night"

Visit "[Open All Night](#)" on [MotoLyrics.com](#)

Tonight tonight, I feel just fine
Out on the streets and right out of my mind
And I know everything that a good boy should know
So darlin' you gotta tell me which way the winds gonna
blow
I'm old enough to know that's wrong and that's right
I've just got to know if that thing is open all night

With the way you walk there ain't no mistake
My finger starts a shakin', knees start to quake
And I'm gonna love you baby until I'm completely spent
Turn around, jack back up and be a hundred percent
Turn a mouse into a man, a man into dynamite
I've just got to know if that thing is open all night

[Incomprehensible]

Love isn't blind, love isn't pure
But you'll never find anything else shine any truer
You got me shinin' like a candle and it's burnin' at both
ends
I wanna be your lover, don't care at all 'bout good
friends
I'm old enough to know that's wrong and that's right
I just got to know if that thing is open all night
Open all night, open all night, open all night

Well you turn a mouse into a man, a man into dynamite
I've just got to know if that thing is open all night
Twenty-four hours baby
C'mon boy get you some
Oh yeah, get it
[Incomprehensible]
