Nine more miles to see my baby

Nine more miles to see my baby

Driving home, I've been away so long (faster, faster)

Eight more miles to see my baby

Eight more miles to see my baby

Never roam, I'd rather stay so long (faster, faster)

Oh, now there's just seven

Seven more miles

I'll be in heaven in just a little while

Six more miles to see my baby

Six more miles to see my baby

She'll look great waitin' at her front door (faster, faster)

Five more miles to see my baby

Five more miles to see my baby

I can't wait to kiss her just once more (faster, faster)

Oh, my heart beats faster

Thinking of her charms

Faster and faster, till I'm in her arms

Four more miles to see my baby

Four more miles to see my baby

Why oh why, why need he drive so slow? (faster,

faster)

Three more miles to see my baby

Three more miles to see my baby

What a find, I plan (?) to go go go

Go, go, go!

Oh, wheels keep turning

Fast as you can

Oh how I'm yearnin' to hold her again

Oh, two more miles to see my baby

Two more miles to see my baby

This will be what I've been longing for

One more mile, I see my baby

One more mile, I see my baby

I can see her racing at the door

No more miles, (?) my baby

No more miles, (?) my baby

Drive to meet, don't have to wait no more

I don't have to wait no more
