[Chorus]

So won't you tell me you're coming home today
I want you warming my lonely heart
Just come back, promise that you will stay
I'm wishing for you to hold me like you
used to do every night because this christmas I need
you by my side

I am alone, and I wonder
About you all day long (about you all day long)
I can't deny I'm in need of you,
The feeling is just too strong.

I can't stop myself,
Thinking about you
All the things you say
And I do..

[Chorus]
