I've got this one thing weighing on my mind
I feel this chemistry between you and I
I don't know if you can feel it
But I've got to end this mystery
So I'll take my fate and seal it
I'm picking up the phone before I sleep
And I'm a say?

Baby girl I like the sound of your name
Ever since I heard you say it
My life ain't been the same
I wanna get a little closer to you
I can't take it
All this waiting
I wanna hear from you

Call me back when you got the time
I just wanna know if you will be mine
Call me back when you're alone
I'm waiting by the phone
I wanna know if you're alright
Call me back when you get in
Cause I just wanna know where I fit in
Call me back I'm on the move
Trying to get you
Don't keep me waiting up all night

You and me it's just a matter of time
At any moment now
You will realize
Just the two of us
I know you see it
Girl close your eyes
Don't know what you're missin'
Listen cause you know that I'm right
