She came over about half past 3
She didn't want much
But she wanted me
The weather got rough
As I swam through her sea
Pull me aboard cause I'm capsizing

What do you want? What do you need?
What do I do if you leave?
Is this the one chance I might have?
Or will you come and see me again?
When's the right time? When should I call?
Or will I never see you at all?
Just tell me girl
Cause I wanna know?

What that our one night?
Baby, you can't give me one hit
Then walk away
Please don't go.
Don't you leave me alone.
(Repeat)

She left without a word
With no warning
I woke up all alone
Where could she be?
I found a note on the counter
In her handwriting
She said she needed time alone
Now, what could that mean?
