Gently close the door, come here
We're all alone and there's no need to fear
It's been a while since we last met
I understand if you, too, have been upset

REFRAIN 1

Hold me now, just allow
Your heart to reach out
Just erase all your doubts
We're gonna be just fine
We're gonna work it out somehow

CHORUS

'Cause I believe you and me
We're meant to be together
I believe in my dreams
That this is meant forever
Through it all, we won't fall
I know we'll fly across the stars
No matter how far they are
'Cause I believe
I believe

Many times you said goodbye
But destiny just won't keep us apart, no no
I can see right through your eyes
And I feel the pain and hurt inside your heart

REFRAIN 2

Touch me now, feel my love
Let the passion burn
Let the moon up above
Set up our return

[Repeat CHORUS except last line]

BRIDGE

Even though we don't know what's ahead
Our love will overcome the tears we've shared
We will be strong, carry on
No matter how long
We'll win the test of time
Our faith will write the rhyme

We will rise and shine

CHORUS

I believe you and me
We're meant to be together
I believe in my dreams
That this is meant forever
Through it all, we won't fall
We'll fly across the stars
No matter how far they are
We'll win the test of time
Our faith will write the rhyme
We will rise and shine
I believe
Ohh
