Once upon a Christmas song
Everybody sing along
You see the joy on every face
And the world seems a happier place!

This song brought us together (together)
Good times, memories forever (forever)
Now I know what they mean
And what they've given too me
I'd of never believed...

That we'll be singing it over and over and over again
Every December they get in our heads
Turn them up, play it loud
Every Christmas should be the same!
Singing it over and over and over and over again

They say it's good for the soul (good for the soul)
But someone tell me I don't know
Why no one seems to write them no more (write them
no more)
So the only way to settle the score
Is to all make way for a new one (a new one)
Keeps the heart of the old one (the old one)
With a little bit of festive cheer
And you know when Christmas is near
When this record appears once a year

You'll be singing this over and over and over again
Turn it up play it loud
Every Christmas should be the same
Singing it over and over and over and over again

It's getting in your head (It's getting in your head)
It's getting in your head (It's getting in your head)
And if your not singing it all night
You'd be telling a lie

You'll be singing this over and over and over again
Every December you'll hear it and say
Turn it up, play it loud
Every Christmas should be the same

Singing it over and over forever and ever again...
