you spend all your time away from home you spend all
your money too bad it's all gone you spent all your
friends and now they're done you burned all your
bridges too bad they're all gone you're well on your
way so don't mind me forget all the others they just
don't see you've got everything you need to make it on
your own so pour out your insides it won't be that long
wishing you the best of luck in everything you do
wishing you the best of luck now hoping that you're
finding everything you're looking for i'm wishing you
the best of luck i hope you make it 'cause it's so
important to you
