you spend all your time away from home you spend all  
your money too bad it's all gone you spent all your  
friends and now they're done you burned all your  
bridges too bad they're all gone you're well on your  
way so don't mind me forget all the others they just  
don't see you've got everything you need to make it on  
your own so pour out your insides it won't be that long  
wishing you the best of luck in everything you do  
wishing you the best of luck now hoping that you're  
finding everything you're looking for i'm wishing you  
the best of luck i hope you make it 'cause it's so  
important to you
