Alter and teach the ages.
Nothing you love lasts too long.
A marvelous calm, abandoned in the stages of
birth mother vs. the mid wife.
Who'll tell the children about her life?

That's why you never mentioned my name to them,
denying us all of the moment.
That's why you never mentioned my name to them,
denying us all of the moment.

What brought you back to this place?
I knew you'd never learn,
I knew you'd never...
Anything expected of you now,
I knew you'd never learn,
I knew you'd never...

I'd place my bet down now, you'll be the first one to sell
me out

That's why you never mentioned my name to them,
denying us all of the moment.
That's why you never mentioned my name to them,
denying us all of the moment.

What brought you back to this place?
I knew you'd never learn,
I knew you'd never...
What brought you back to this place?
I knew you'd never learn, it's obvious.
What brought you back to this place?
What brought you back to this place?
