What can I say
There's an empty where your love
Filled my life and I know.
That a part of you will always be
A part of me.

One summernight
And the sky is full of wishes
That won't arrive.
How can I be
In a world without your eyes
To look at me.

No more Boleroes
No more nights to dance the dance of love
Only lonely hearts
No more Boleroes
I hear the song
And your arms always make me feel so warm
Now you're gone I'll be dancing on alone.

No more Boleroes
No more nights to dance the dance of love.
Only lonely hearts
No more Boleroes.
