Help me  
I need your love  
Don't walk away  
The dark scares me so  
We're nothing apart  
Let's stay friends forever  
Forever

Here I stand and face the rain  
I know that nothing's  
Gonna be the same again  
I fear for what tomorrow brings

Trust me  
For who I am  
Lay all you claims  
Into these hands  
I've got nothing to say  
But let's stay friends forever  
Forever

Here I stand and face the rain  
I know that nothing's  
Gonna be the same again  
I fear for what tomorrow brings

Here I stand and face the pain  
Of knowing nothing's  
Gonna be the same again  
I fear for what tomorrow brings

Here I stand and face the rain  
Knowing nothing's gonna be the same again

Here I stand and face the rain  
Knowing nothing's gonna be the same again
