Well, you know
And you go
When i'm alone i have no cause
To think about the sheet
We used to know
You made a snow

Well, you came
And you stayed
No one here to raise a toast
Be my guest
And i will be your host
To a rock n roll ghost
A rock n roll ghost

Well, you said:
"She's better off dead"
You think that i'm a ... lot of words
But i was much to young
And much too cool for words
Look at me not

No one here to raise a toast
Take me by the hand
And raise a toast
Oh, the rock n roll ghost
To a rock n roll ghost

We don't know untill we come

There's no one here to raise a toast
I look into the mirror and i see
The rock'n roll ghost
My rock'n roll ghost
