Dearest...
Dry your eyes now
Don't you cry
It's all right
Lie back
Leave the light on
It's all right, dear

I'll be here through the night
With you till the first signs of light
Say the word and I'll come tonight
It's all right now
Don't you cry now

Hush...
Wipe your tears away
There's never a forever thing

All through the night
I'll try so hard to be there somehow
With you till the first signs of light
Say the word and I'll come
Tonight
Darling, don't you
Cry.
