Walkin' down the long road
Ran into a strange man
Said he thought he'd borrowed
Bought himself a game plan
Shook my head and nodded

That's all I ever plotted
That's all they ever wanted
That's all they ever saw then
Pulled myself together
Laughter forever

Now I hear the laughter
Now I hear the laughter
Now I hear the laughter
Now I hear the laughter

Walkin' down the long road
Ran into a strange man
Said he thought he'd borrowed
Bought himself a game plan
Shook my head and nodded

That's all I ever plotted
That's all they ever wanted
That's all they ever saw then
I pulled myself together
Laughter forever

Now I hear the laughter
Now I hear the laughter
Now I hear the laughter
Now I hear the laughter

Walkin' down the long road
Ran into a strange man
Said he thought he'd borrowed
Bought himself a game plan
Shook my head and nodded

That's all I ever plotted
That's all they ever wanted

That's all they ever saw then
I pulled myself together
Laughter forever

Now I hear the laughter
Now I hear the laughter
Now I hear the laughter
Now I hear the laughter

Walkin' down the long road
Ran into a strange man
Said he thought he'd borrowed
Bought himself a game plan
Shook my head and nodded

Well, that's all I ever plotted
That's all they ever wanted
That's all they ever saw then
I pulled myself together
Laughter forever

Now I hear the laughter
Now I hear the laughter
Now I hear the laughter
Now I hear the laughter
