People tell you that you can't find love
Or you'll never find your turtle dove
Don't believe a word of what they say
'Cause when I met you, my love
I knew, I knew it had happened to me
It's happened to me

You can tell by the way I walk
Or even tell it when I talk
& I'm so proud it's plain to see
'Cause when I met you, my love
I knew, I knew it had happened to me
It's happened to me

I don't mind telling everyone
I'm proud to say you're my only one

(x2):
So if they you that you can't find love
Or you'll never find your turtle dove
Don't believe a word of what they say
'Cause when I met you, my love
I knew, I knew it had happened to me
It's happened to me
It's happened to me
