Nothing is lost
And nothing's gained
It's the same old situation again
No I can't give or take anymore

Gets so lonely
There's really nothing left to say
Gets so lonely
And everything's so far away

No one is right
And no one's wrong
How can I say right now
Which side I'm on
No I can't give or take anymore

Gets so lonely
There's really nothing left to say
Gets so lonely
And everything's so far away
