Nothing is touched, I still want you so much
The feeling's so strong yeah -- but I could be wrong
A love affair ends, and now we're just friends
The real thing is gone yeah -- but I could be wrong.

In the morning when I wake up and it's a sunny day
All my troubles seem to fly away
Then I remember, and it's down and down I go.

I watch the rising of the moon
Darkness always comes too soon
When the night comes falling
It's down and down I go.

Now I can see you don't need me
You'll get along yeah -- but I could be wrong.

Day and night I've been soul searchin' in a stormy sea
All your tears washin' over me
When the truth comes callin', it's down and down I go.

I was dreamin' of the night we met
So many moments that I can't forget
When the night comes fallin', it's down and down I go.

Now it appears I've cried all my tears
The sadness is gone yeah -- but I could be wrong
Nothing is touched, I still want you so much
The feeling's so strong yeah -- but I could be wrong.

Time goes by and a love affair ends
Hearts run dry and now we're just friends
The real thing is gone, we'll sing you a song
But I could be wrong.
