Playing guitar
Friday night in Sally's club bar
Big money man said
"Won't you join my rock 'n' roll band?"

But if I'm going to make you a star boy
Get yourself a chauffeur-driven car, yeah
Sign on the dotted line
It's gonna work out fine

(Played in Hamburg just to make me some money)
Get on the phone
(Played the [Incomprehensible] but never got honey)
She says "I need some money back home"
(Big fat money man, he wrote me a letter)
Big money man says
"Don't you worry boy, you're not on your own"
("Don't you worry boy, it's got to get better")

If I'm going to make you a star, boy
Get yourself a chauffeur-driven car, yeah
Sign on the dotted line
It's going to work out fine

I could have stayed at home forever
But big money man was much too clever

He says "Sign on the dotted line
It's gonna work out fine"
