I wish we could be alone  
So all of the world couldn't see  
How much we have together  
And how much you mean to me  
I wish we could put out the flame  
But oh, sweet baby, tell me would it be right?  
I take the subway and you take the train  
I got a husband and you got a wife  
I wish we could love and then not always have to  
pretend  
I wish we could be alone, all alone  
I wish we could be alone, all alone  
I know it's not simple, but I know that it's strong  
And I know it will never be easy, but I know it ain't  
wrong  
I wish it could always be the way it is when you're kissin'  
me  
I wish we could be alone, all alone  
I wish we could be alone, all alone  
And so we'll go on and on, hidin' out the way that we do  
Keepin' it from all of our friends, there ain't a-nothin'  
between us two  
I wish we could hang about, and not worry who's givin'  
in or out  
I wish we could be alone, all alone  
I wish we could be alone, all alone  
I wish we could be alone, all alone
