"I Want You To Know"

Ever since I saw you
Entering my world
Life has really changed
To diamonds and pearls
I'm tryin' to take it slow
Just goin' with the flow
I want you to know
I want you to stay
Don't go
Every day's the same
Like cracks on the wall
But everytime I meet you
All walls start to fall
But I'm tryin' to take things slow
Just goin' with the flow
I want you to know
I want you to stay
Don't go
I want you to know
I'm comin' your way
Don't go
I want you to know
I want you to stay
Don't go
I want you to know
I want you today
Don't go
