

## Get Over It "Limiter"

Visit "[Limiter](#)" on MotoLyrics.com

Sometimes you just have to let go  
Start writing off the effort.  
Cant you just stop pretending?  
Could it be that something's changed?  
Cause nothing feels the same to you.  
Imagine that, a world that we just cant understand.  
Are we messed up? You be the judge now that you've  
offered us you're trust  
No matter what cant we teach them to mess with us.  
Let them keep their words, we don't come around to  
cast threats.  
Pick up your feet and pass it around again.

Four walls keep closing in on me  
Im drowning.  
In a pool of doubt I try  
To recognize these dreams before we  
Waste all the space inside.  
Before we waste all the space inside my mind.
