Come on rider Â‘cause I long to talk to you

Come on rider Â‘cause your face is carved in blue

Since that day when I met you

I paid the bill but wasnÂ‘t through

And forever we are two

Come on rider Â‘cause I long to talk to you

I guess for you IÂ‘m just a face that has no name

Just a pay and go away

But you left me out of clues

And forever we are two

Come on rider leave your riots and leave your men

Â‘Cause we all often give ourselves away for change

It always shines after the rains

Come on cry for me your blues

And forever we are two
