"Get Closer Now"

Visit "[Get Closer Now](#)" on MotoLyrics.com

I always wished to be around
Me brother's kids as they become
Young folks to gaze at
And to be proud
To know that life will stick around
Through all the rights and wrongs that we've sustained
forever
But here we are so far from that

Lately I began to wonder
What's there for me around this town?
Whose skyline shape seems like forever growing
monsters
It gets me down, so down

And for the first time
Thoughts grow and road
And get closer now to where I'm from
I look at the faces that I've know since
My younger days and let them see
That I now understand the meaning of relations
And get closer now to who I am

Lately I began to wonder
What's there for me around this town?
Whose skyline shape seems like forever growing
monsters
It gets me down, so down
And weirder scenes appears in my dreams
And when I wake up they never stop
The millions people I pass have blinded faces
It gets me down
So down

Wish I was closer
To life
