The faggots with aids
Are all gonna fry
You stuck it up an ass
Primate now were gonna die
Die when you die
When you die your gonna die
Die when you die
When you die your gonna die
The kkk put the niggers out to die
With the blackies burning
I hope he's gonna die
Die when you die
When you die your gonna die
Die when you die
When you die your gonna die
Talked to my bitch
Cuz she was a guy
Talked to my man
And she said your gonna die
Die when you die
When you die your gonna die
Die when you die
When you die your gonna die
If you've got cancer
Then go fuckin die
If you got aids
Spread it around
And take some lives
Die when you die
When you die your gonna die
Die when you die
When you die your gonna die
