Everybody's got something to do  
I've got nothing but this empty room  
Everybody's got some kind of job  
Everybody's got someone to love  
Not me, I'm fucking the dog

Everybody's got somewhere to go  
I've got nothing but this dirty hole  
Everybody's going out tonight  
I'm staying here and out of sight  
Yea, fucking the dog

I'm living in darkness every day  
I'm the devil's son some people say  
I'm so far gone I can't be saved

I'm just living day to day  
Yea, that's right, fucking the dog

C'mon, fucking the dog  
That's right, I'm fucking the dog  
You're never done 'till you do it like I said  
You've got no one to love, I'm just fucking the dog  
Fuck, fuck, fucking the dog
