Fun time in the city tonite  
Young girls make me feel alright  
Try to dance and I'll get you a pop  
Under those bright lights tonight, so

Come on now, lets get going  
We got lots of things to do  
One thing that I know is  
We're gonna raise hell in New York City tonite

42nd street's got what I need  
Dark alleys and alot of disease  
Hanging out on the lower east side  
We don't give a damn if we live or die, so

Come on now, let's get going  
We got lots of things to do  
One thing that I know is  
We're gonna raise hell in New York City tonite

Whatcha gonna do about us tonite  
You can't control us and you better not try  
The city's mine, the big apple of I  
Lets do it now and lets do it right, so

Come on now, lets get going  
We got lots of things to do  
One thing that I know is  
We're gonna raise hell in New York City tonite  
Gonna raise hell in New York City tonite  
We're gonna raise hell in New York City tonite
