Once my girl was conscious, she had better days with
you
Then fame and fortune came your way and made a
change in you
You climbed your ladder of success and I'm not on solid
ground
And when it starts to trouble, pick me up on your way
down

Pick me up when roses are shattered, when false friends
cannot be found
Oh you know I'll still be drinking, pick me up on your
way down

I've hit the bottom of the glass, there's just one way to
go
The world I've chosen for my own is one you'll never
know
When folks say they don't know me, say I'm not on
solid ground
You will find me in my alley, pick me up on your way
down

Pick me up when roses are shattered, when false friends
cannot be found
Oh you know I'll still be drinking, pick me up on your
way down
Pick me up when roses are shattered, when false friends
cannot be found
Oh you know I'll still be drinking, pick me up on your
way down
