"Terror In America"

Visit "[Terror In America](#)" on MotoLyrics.com

Put terror in America every day
Don't play by the rules of society
It's time to start a war against the nation
Sabotage and overthrow the power station

Sabotage downtown streets
Overthrow government, kill police
Burn the flag for which it stands
Terrorize american lands

I will not act civilized
Morals and values, I cast aside
It's tough for a guy, homicide
Kill with fury, kill with pride

Sabotage downtown streets
Overthrow government, kill police
Burn the flag for which it stands
Terrorize american lands

I'm not about to be another statistic
Another notch in the lawman's gun
Another convict on the police hit list

I'm gonna kill when I see them come

Sabotage downtown streets
Overthrow government, kill police
Burn the flag for which it stands
Terrorize american lands

This land is yours and mine to rape
Kill the man who stands in the way
Laws and boundaries must be crushed
Running wild in America's dust

Sabotage downtown streets
Overthrow government, kill police
Burn the flag for which it stands
Terrorize american lands
