"You Hate Me & I Hate You"

Well you hate me and I hate you
You never understand the things I say or do - So what's
new?
You never liked me so I say fuck you
You know, you know that you don't like me and I don't
like you

You never listen to my point of view - I'm telling you
Why don't you all drop dead, you fucking fools - It's you
who loose
You never wanted me so I say fuck you
You know, you know that you don't like me so I say fuck
you

You never like the things I say or do, so whatcha' gonna
do?
Why don't you all go home and go back to school - With
your golden rule
Mindless, gutless puppets, who needs you?
You know, you know that you don't like me and I don't
like you
You know, you know that you don't like me and I don't
like you
You know, you know that you don't like me and I don't
like you
You know, you know that you don't like me so I say fuck
you
