Evidence:

(Punch in)

I punch in this Club Elaine

Punch out just pissed in Hurricane

When this is done things will never be the same

Peace to mega trend setters along I'm never taggin'

Word Tameer and ah year of the Dragon

In '76 born bomb lyricist

Ever since I stun the mic and drums I keep 'em crisp

>From that events which occur in dense fog

Accumulates clouds monsoons and thick smog

By the way this is protected by the green that I'm

smokin'

With the key to unlock your mind I get it open

Ajar mad far I kick you out the drivers listen

Dilated Peoples place in po position

While suckers steady fishin'

I got that big catch

Lead you to the trap door switch on the latch

My name is Evidence and my mic a strike on any match

(in fact)

After this track we'll have 'em stuck like tacks

Hook:

It's the one two three MCs

Now it's our turn to burn and blaze for always (X2)

Defari:

I keeps it rough and rugged rugged and rough

A lot of kids think they hard oh my God I call they bluff

And pull they cards like the king of hearts

A lot of these cats act well enough to play the parts

But I see through that's why I stay true

And keep it real

Rhymes worth more than eighty mil

I blaze records like a circle on magnify

Precise laser beam lyrics (who you?) Heru Defari

Oh me oh my these botty bwoys gon have ta die

They can run and hide but Allah know every Sodomite

That's why righteousness prevails through every verse

Me have to ? down Babylon and live free of curse

Or free of evil strictly rough rhymes fro the People
Dilated together we bond like seamen
We breathin' with Reggie White style defense
Raise you hand if you're tired of the rapper man who
don't make sense
Lyrics of gold rhymes are worth more than bill folds
All you wack MCs give back them styles that you stole
You owe
Your dues are questionable
You're a longtime criminal there's a hit out on you

Hook (x4)

Iriscience:

I create to devastate
Deep space blast off
Make you salivate like pets of Pavlov
Lines like bar codes but no mark of the beast
Givin' peace to pioneers of the parks in the east
From LA at it's finest the name is Iriscience
Or Mr. Iristyle I hold material like Linus
David to Goliath is me to the mindless
I hope I haven't been chipped so satellites can't find it
Big up to Iodine I try to get in touch
Big Up to Defari for comin' through in the clutch
Lyrically, I pick 'em apart like Coleef
Prophecy of Garvy manifest Salacee
Concoring lion 225th in the line
So I choose to entertain AND uplift the mind
Dilated never wack crew
Ready set and tatoo
Understand that rocker don't Throw Stone I throw
statues
