CHORUS.

I don't wanna get political but its the principal  
there ain't enough of us filling in the forms  
and its so far from difficult (it doesn't have to be this  
way, this way)

Some don't know what a census is  
some do but they cant see the scene in it  
just remember this if minorities dont fill in the forms  
whats the point in living in Britain at all  
there ain't nothing worse than being invisible  
But we can change that asap  
its digital times were living in  
so you can do it online and it wont even take a long  
time  
the government have got a lot of money coming in  
so if you pay tax in the long run you can benefit  
yeah, i reckon its pay back  
and if i have to be the voice for the people  
then im a make noise till im equal  
to anyone sitting in parliament  
a poisonous needle couldn't put me on hold  
I look beyond home  
so im a spokesman for this whole thing

CHORUS.

I don't wanna get political but its the principal  
there ain't enough of us filling in the forms

and its so far from difficult (it doesn't have to be this  
way, this way)

This is a campaign for a dam change  
stand up and be counted its our day  
I know 2,11 seems far away  
but its nearer than you think  
so lets start today  
theres a lot of history we cant erase  
the last census we hardly paid  
any attention to thats our mistake

one of many we can learn from lets start again  
its up to me its up to you its up to us  
we can have a say in what the Government does  
and if we cant then the Governments ffft  
at least 15% of the population  
are ethnic minorities  
and most of us feel like the government aint doing  
nothing for us  
but now we got a chance to put them to the test  
so fill out the forms and keep and keep pushing for the  
best

CHORUS. x2

I don't wanna get political but its the principal  
there ain't enough of us filling in the forms  
and its so far from difficult (it doesn't have to be this  
way, this way)
