[Chorus]

f*ck ho's and rock fake friends
f*ck fashion I set trends I
Don't front and I don't pretend
I'm just tryina do my thing

B-tek

First I'm gonna take the streets then I'm gonna take the world
Then I'll get my dough and then I'll get my girl
Then I'll do it again and make hit after hit
The only shit that we be dropping is the real hot shit
We the new kids on the block
But fuck that we the ghoodfellaz on your block
You think this is good wait until the album drops
No this is real warm but the albums hot
Now write a letter of complaint if this don't make you bop
I'm ready for war my lyric pistols already Gluck
You ready for more? I'll leave you standing there in a shock
I'll leave you thinking u be stinking like your grandpas socks
We the goodfellaz we already docked
We here there everywhere and we blowing up spots
The next place you gonna see us at the top of the charts
And like I said before people we aint never gonna stop

[Chorus]

f*ck ho's and rock fake friends
f*ck fashion i set trends I
Don't front and I don't pretend
I'm just tryina do my thing

[Jt - "H*U*P"]

You aint got no choice, gotta get used to the sound of my voice
Put your G's up and yup make some noise
Say I'm cocky well then you don't know me honestly

I'm a heaven sent instrument so how are you gonna
stop me
Being talented is my habit, even my name tapi
In full means given by god so I'm gods gift to my
family
My mama was a poet and my papa was an engineer
You can call me the poetic sound engineer oh dear
British born African, f*cked up and sound American
Interested in a girl whose second name was Benjamin?
Was looking to get Benjamin's Euros, pounds and
expensive things
It's all irrelevant but I want my life different now
Instead I'm a stay focus till I'm dead
Get rich or die trying I'm sure fifty said
I don't make mistakes uh uh
Only make clever ones
That's why outta millions there 1 jtp version 1. HUP

[Chorus]

f*ck ho's and rock fake friends
F*ck fashion I set trends I
Don't front and I don't pretend
I'm just tryina do my thing
