[CHORUS]

We was those young boys, nobody had no time for,
It's alright... alright... alright.
Now we got that fire gon keep blazing till we higher
It's alright... alright... alright.

[B-TEK][

Now let me tell you about this guy that I used to know
And all the sh*t that happened not too long ago
Yea he used to go to school he was loved by many
Pupils, teachers even the lunch time ladies
And every girl wanted him
But he was a pimp
Used to look fly with his blazer jeans and Timbs
Yea he used to walk around with his head up high
And hating guys always tried to cripple his pride

But young Fella... He too smart for that,

He already knew where he ought to be at
Kept it real with his friends and stopped bunking off
class
Went to every other lesson except for maths
Got his head screwed on, he knows what he wants
An angel touched him and said now you one of the
talented ones,
He needed paper back up so went to college at once

But that another story for now the chapter is done!

[CHORUS]

We was those young boys, nobody had no time for,
It's alright... alright... alright.
Now we got that fire gon keep blazing till we higher
It's alright... alright... alright.

[JTP]

He was a hip urb punk boy,

From the ends into rock cussed but he just didn't give a
f*k boy.
His only goal was to reach for the stars
Like the ones on the scarf
That represent what punks are

Was looking for a break, the time was never right
Kinda like the time that's shown on FLAVA FLAVS clock
boy
Never one to let fate decide his fate
(Scratch) rapped and scratched until the day came,

London Croydon the place HUP was born and not
raised
They say everything happens for a reason mate
Out of the whole UK Ghodfellaz the last eight

So... tell me do you believe in fate
Letting sh*t happen just for lettinng it's sake
Or... do you believe in making it happen
Sweating it out, for real yo until the sh*t's poppin.

[CHORUS]

We was those young boys, nobody had no time for,
It's alright... alright... alright.
Now we got that fire gon keep blazing till we higher
It's alright... alright... alright.

We was those young boys, nobody had no time for,
It's alright... alright... alright.
Now we got that fire gon keep blazing till we higher
It's alright... alright... alright.
