We saw the western coast  
I saw the hospital  
Nursed the shoreline like a wound  
Reports of lovers trysts  
Were neither clear nor descript  
We kept it safe and slow  
The quiet things that no one ever knows  
So keep the blood in your head  
And keep your feet on the ground  
If today's the day it gets tired  
Today's the day we drop out  
Gave up my body and bed  
All for an empty hotel  
Wasting words on lower cases and capitals  
So keep the blood in your head  
And keep your feet on the ground  
If today's the day it gets tired  
Today's the day we drop out  
Gave up my body and bed  
All for an empty hotel  
Wasting words on lower cases and capitals  
I contemplate the day we wed  
Your friends are boring me to death  
Your veil is ruined in the rain  
By then you I can do without  
There's nothing new to talk about  
And though our kids are blessed  
Their parents let them shoulder all the blame  
So keep the blood in your head  
And keep your feet on the ground  
If today's the day it gets tired  
Today's the day we drop out  
Gave up my body and bed  
All for an empty hotel  
Wasting my words on lower cases and capitals  
So keep the blood in your head  
And keep your feet on the ground  
If today's the day it gets tired  
Today's the day we drop out  
Gave up my body and bed  
All for an empty hotel

Wasting words on lower cases and capitals  
I lie for only you  
And I lie well  
Hallelujah  
I lie for only you  
And I lie well  
Hallelujah  
So keep the blood in your head  
(I lie for only you)  
And keep your feet on the ground  
If today's the day it gets tired  
Today's the day we drop out  
Gave up my body and bed  
All for an empty hotel  
Wasting words on lower cases and capitals  
(And I lie well)  
So keep the blood in your head  
And keep your feet on the ground  
If today's the day it gets tired  
Today's the day we drop out  
Gave up my body and bed  
All for an empty hotel  
(Hallelujah)  
Wasting words on lower cases and capitals
