Opening Song

Angely i demony kruzhili nado mnoj
Razbivali ternii i zvyozdnye puti*
Ne znaet schast'ya tol'ko tot,
Kto ego zova ponyat' ne smog...
Angels and demons were circling above me
Breaking the hardships and starry ways*
The only one who doesn't know happiness
is the one who couldn't understand it's call

I am Calling Calling now, Spirits rise and falling
Soboj ostat'sya dol'she...
Calling Calling, in the depth of longing
Soboj ostat'sya dol'she...
I am Calling Calling now, Spirits rise and falling
To stay myself longer...
Calling Calling, in the depth of longing
To stay myself longer...

Stand alone... Where was life when it had a meaning...
Stand alone... Nothing's real anymore and...
Stand alone... Where was life when it had a meaning...
Stand alone... Nothing's real anymore and...

...Beskonechnyj beg...
Poka zhiva ya mogu starat'sya na letu ne upast',
Ne razuchit'sya mechatat'...lyubit'...

...Beskonechnyj beg...
...Endless run...
While I'm alive, I can try not to fall while flying,
Not to forget how to dream... how to love
...Endless run...

Calling Calling, For the place of knowing
There's more that what can be linked
Calling Calling, Never will I look away
For what life has left for me
Yearning Yearning, for what's left of loving
Calling Calling, For the place of knowing
There's more that what can be linked

Calling Calling, Never will I look away
For what life has left for me
Yearning Yearning, for what's left of loving

Soboj ostat'sya dol'she...
Calling Calling now, Spirits rise and falling
Soboj ostat'sya dol'she...
Calling Calling, in the depth of longing
Soboj ostat'sya dol'she...
To stay myself longer...
Calling Calling now, Spirits rise and falling
To stay myself longer...
Calling Calling, in the depth of longing
To stay myself longer...
