I work at burger king making flame broiled whoppers
I wear paper hats
Would you like an apple pie with that?
Would you like an apple pie with that?

Ding fries are done (x4)

I gotta run (x4)

Don't fuck with fries in hot vat it really hurts bad and so
do skin grafts
Would you like an apple pie with that?
Would you like an apple pie with that?

Where is the bell?
Wait for the bell
Can't hear the bell
Where is the bell?

Ding fries are done (x4)

I work at burger king making flame broiled whoppers
I wear paper hats
Would you like an apple pie with that?
Would you like an apple pie with that?

Ding fries are done (x4)
