My heart is full of hatred and loathing
For your ugly faces and stupid clothing

Like I said, I hate you jerks,
What a bunch of stupid jerks
I smack you up then stomp you down
I'll stomp you back to Uglytown
Or maybe I'll kick your fat ass

I am Zorak
You are crap

Help me out, I have no clue
What the hell gave birth to you
You smell rank, like something dead,
I can't tell your butt from your head
(From your head)
Now bend down and kiss my green ass!
(Ass!)
