What happened to the water, the water, the water
What happened to the water
The water's so wet!
It mixed up with the dirt, the dirt, the dirt
The water got into the dirt and turned into mud
The mud got on my shoe, my shoe, my shoe
The mud got on my shoe, and then I came inside
I messed up the carpet, the carpet, the carpet
My mud got on the carpet, and my Mom got mad
She sent me for some water to clean up the carpet
I turned on the faucet, but nothing came out
What happened to the water, the water the water
What happened to the water
The water went into clean the carpet and wash the dog
And wash.....the dog.....
Wash the dog!
