[Ghostface]

Just like a fresh pair of Royals on the first day of school
It was love, even from the jump I spoiled you
Before the fame camera cars and the glitter
Though my occupation is tasty for God's sake it came
with the bitches
But that's on another note (uh-huh) let me explain here
right now sugar on how I feel for you
Like when we UHH yo I get these crazy chills from you
And when we done, yo I know the perfect meal for you
The mashed joints, big onions on sauteed fish
Little Royal, candle and one big kiss
You my pumpkin and my 'nilla custard; you cussed me
out
when you found condoms layin in my pocket I was
busted
I gets right witchu (uh) form a life with you (yeah)
The type after sex get a warm rag and then wipe you
Hyped up love light it up, might bite you at the altar
I'm bitin off you, I'm wearin white too

[Ruff Endz]

Ain't it funny how tables turn, chase you all around
Change your life baby, cause I love you baby

[Chorus: Ruff Endz (+ ad libs)]

Stuck with me through the thick and thin
Through the pain and strife.. the love of my life
Said that it will ne-ver last
But I'm here by your side.. the love of my life

[Ghostface]

And I'm here.. that's my word
Only fight you when we makin love, that's what I call it
Burnin the chronic we laughin while I'm shittin on the
toilet
Camcord it, happy times record it; the time you asked
me
for them blue Nike's - I was like, "Boo I can't afford it"
I was fucked up, plus I was stuck, Starks the King
Hit the block and still scraped up, eighty beans

How you like them apples? My technique is Taye Diggs
Your attitude is right that's why I made you my Wiz
The only girl that can make my shit jump, with the
slightest touch
You at the stove while I'm grabbin my stuff
God forbid somethin happen to us
Let's remain and friends and discuss our troubles and
might try again
Word to my Iron pen, it's not good to hold the cryin in
I feel the same way your heart's trapped in the lion's
den
Iron Man, I am him
It's the beauty in our souls through Allah where the love
lies within

[Ruff Endz: repeat 2X]

Can't believe you found love in me, through everything
Held me down like my boys in the streets, here's the
ring
Whatchu wanna do? Whatchu wanna do?

[Chorus]

[Ruff Endz]

Every part of me, every thing I've done
is still there, still there, still care, ohhh
Always been there baby
I don't wanna, and I don't wanna cry no more baby
And I love, and I love and I love you girl [Chorus (+ ad
libs)]
