Sensitized by every word that you say
Boy you got me messed up
But I like it that way

Tantalized just too good to refuse
When I try to stop ya
You keep blowing my fuse

Can't deny how hot the feeling
If the body could fly
I'd hit the ceiling cause I

Can't hold back, the minute I try
Baby you trip the switch and I'm sensitized
Ev'ry touch, whatever you do
Baby you trip the switch, I turn on for you

Energized by all the pleasure and pain
Boy got that something
That burns a spark to the flame

Look at me, you got me begging for more
'Cause you got that one thing
I hadn't discovered before

Can't deny how rude I'm feeling
If the body could talk
You'd hear me screaming cause I

Can't hold back, the minute I try
Baby you trip the switch and I'm sensitized
Ev'ry touch, whatever you do
Baby you trip the switch, I turn on for you

I'm sensitized tonight and you can watch me come
alive
I'm sensitized tonight and you can watch me come
alive
I'm sensitized tonight and you can watch me come
alive
I'm sensitized tonight, I'm sensitized tonight

I can't hold back, the minute I try
Baby you trip the switch and I'm sensitized
Ev'ry touch, whatever you do
Baby you trip the switch, I turn on for you, I turn on for
you

I can't hold back, the minute I try
Baby you trip the switch and I'm sensitized
Ev'ry touch, whatever you do
Baby you trip the switch, I turn on for you, I turn on for
you

I come alive
Baby you know it's true, I feel this for you
I come alive
Baby you know it's true, I feel this for you

I come alive
I come alive
