[Ghostface Killah]

Ay yo I'm skinned up, Nike's is scuffed
Still buggin' earlier around four how I escaped the bust
The way I fell cracked the face of my watch
My mans chantin' me on like "Run son! Don't go up in
the spot"
Jettin' through bushes and backyards, neighbors is
rattin' me out
Dogs is barkin' all you hear is the car's sirens
I'm tryin' to think and toss the iron
Bomb in my sweats got me runnin' funny, you think I'm
lyin'
May God strike me if he don't like me, I'm tired and I'm
out of breath
The weed got me paranoid, my heart's poundin'
through my chest
Tryin' to focus up and make progress
That's what I get for slingin' in them projects
Next thing you know I'm in this bitch's crib chillin'
Told her my story and like this I had her legs in the
ceiling
Cookin' me fried fish sticks, hot side of them biscuits
While she doin' this, the bitch still slidin' on lipstick
Now I got the fat stomach on, she crackin' a dutch
I'm playin' with her pussy on the couch, I'm ready to
fuck
Like come here miss lady wop, where you put the
condom box?
She finished off the last one, oh shit I hear the cops
Handcuffs and talkies, I mashed her white Yorkie
Jettin' up the stairs, them pigs want revenge like Porky's
So I slid, hid behind the wall, opened the door
Like ooo I seen my man Meth goin' in raw
So he jumped up balls out, I hid in the closet
I'm dyin' laughin', he said "Yo Starks be quiet!"

[Method Man]

Now let me put my drawers on, nigga what kinda dope
you on?
Should've knocked before you came in the spot, Ghost

you wrong
Bustin' in here on the government shit
Got this chick screamin' grabbin the sheets tryin' to
cover her tits

She's asthmatic and you laughin' son
I bump my toe on the nightstand just runnin' tryin' to
grab the gun
Shit's real man, you spazzin' dun
There comes a time in a man's life, he gotta toss his
pack and run
You know we family like Crack and Pun
But Mr. GFK, state your business after that be one
Now can it be that you hot lord?
You did some shit on the block that the cops tryin to
lock you for?
Can't believe you blowin' the spot lord
My chick is buggin', she trippin'
My dick keep slippin' out my boxer drawers
Now I'm caught up in the drug sting
Niggas is callin' my horn, police is hittin' every corner
we on
Can't understand it, it's a thug thing
And in the moment of thought, I'm interrupted by
Shallah Raekwon

[Raekwon]

I need my money Meth, gonna by them hundred birds
Tell Tone get at me, all them little clients want work
He know we fresh out, tell the kid meet me, matter of
fact beep me
Word to mother lord, son he got me hurt
You still fuckin' shorty? I knew it
The big mouth broad that be yolkin' my balls out
Her little brother wanted two bricks
You know the nigga licks, a Maybach on twenty-six
All he do is get money, hustle, he's a dick
He told me foul shit, wild shit
That nigga wear a lot of loud shit, no that Steve Rifkind
style shit
Hit me with some other talk, him in New York
They robbed the Venezuelan niggas, stabbed his son
with a fork
That was Jesus' rooster's little niece, little nooses
Father's homeboy, that's the kid who gave us a boost
He gave them things on the arm, said for us to be calm
And if some beef pop off, go ahead and ring the alarm
