"Stay The Night"

Visit "[Stay The Night](#)" on MotoLyrics.com

It's four o'clock in the morning,
I can't take another second of this excuse for taste,
take a chance - stay the night
Oh why don't we take a taxi back to mine,
I'm sure that we'll find a way to pass the time,
take a chance - stay the night

If it's a question of timing, I'll wait
If there's a reason I'll right, always
I gave you the night, coz I know what I found
I think of you and my heart beats a little louder
A little louder

I can't decide if you're giving me a sign,
well maybe you are just like this all the time,
take a chance - stay the night
Oh please don't tell me you're worried you might find
when morning comes you regret you crossed that line,
take a chance - stay the night

If it's a question of timing, I'll wait
If there's a reason I'll right, always
I gave you the night, coz I know what I found
I think of you and my heart beats a little louder
If it's a question of timing, I'll wait
If there's a reason I'll right, always
I gave you the night, coz I know what I found
I think of you and my heart beats a little louder
My heart beats a little louder
I tell you my heart beats a little louder
And oh, stay the night
(stay the night)
Stay the night, come on
(stay the night)
Oh.....
