So what's the point to stay away
It hurts the same either way
We'll hang out when you come home
And I'll still end up alone
But that's the choice I have made
Who thought I would end up here
In the same place after three years
I never was this way before
I never wanted something more
And now I can't just walk away

Please don't look at me I can't stand
To see you cry
It kills me to know that I'm the on-
ly reason why
Sometimes I want to try and forget
What I know
Instead of watching myself try
To let you go

Remember when you said to me
One two three words and what you'd be
Always there so always know
That no matter if you go
I will still be right here

Please don't look at me I can't stand
To see you cry

It kills me to know that I'm the on-
ly reason why
Sometimes I want to try and forget
What I know
Instead of watching myself try
To let you go

Maybe I'm wrong and maybe your right
Or maybe were just fools
Caught up in something
Something that we don't
Know what to do with
Something that we can't

Handle just yet

Please don't look at me I can't stand
To see you cry
It kills me to know that I'm the on-
ly reason why
Sometimes I want to try and forget
What I know
Instead of watching myself try
To let you
